PERSONAL SUMMARY

I am a resourceful, flexible and innovative Project Manager and a qualified, highly competent Captain with a stellar record of efficient yacht management.

Experience is everything with regard to sailing and particularly for a yacht captain. I have navigated on a range of sailing yachts (racing – cruising – multi hull) and motor yachts. As well, I am passionate about the technology and construction of boats. I have project managed both new builds and refits which makes me the ideal candidate for any shipyard or Owner to rely on for navigation and efficient yacht management.

WORK EXPERIENCE

Project Manager on several building in composite, steel, aluminum and wood.

Transatlantic passages as Captain, as well as cruising in the Mediterranean, North and Caribbean seas from 1993 to present. Have also served as first mate on a number of boats, sailing and motor vessels, for both private and charter cruises.

Recent posts include:

Current position: DPA for two 50m Sailing Yacht and Motor Yacht

2016/2017 – Technical Surveyor/Owner Project Manager for the building of a 50m steel/aluminum motor yacht at Rossinavi shipyard and Technical surveyor for a 50m sailing yacht Perini Navi “Silencio”.

2015/2016 - Project Manager Composite for the company Palmer Johnson - Building of one Composite 48m Motor Yacht (carbon fiber) at Brødrene shipyard

2013/2015 - Project Manager/Captain for the building in Riga of Two 53m Trimaran Motor Yachts in Composite (carbon/glass fiber) at Latitude shipyard

2013 – Refit Project Manager/Captain on ‘Gremat’ 30m Motor Yacht cruising in the Mediterranean Sea.

2012 - Project Manager and First mate for a 50m Perini Navi sailing yacht “Silencio” at Perini Navi shipyard.

2008/2012 - Project Manager for M/Y 32m and 45m new builds in Turkey for Sunrise Shipyard

1999/2008 – Project Manager/Captain for composite sailing catamaran 28m, 30m and 43m new builds in Denmark at Danish Yachts shipyard and France at Composite works shipyard

Sea trials as Captain are an integral part of any yacht build or refit and an aspect of Project Management that I particularly enjoy. I look forward to a challenging position with an ambitious company or Owner and ongoing development of my experience and skills as a **Captain** and a **Project Manager**.
